ONLINE SHOPPING

In recent years, online shopping has become popular; however, it still caters to the middle and upper class. In order to shop online, one must be able to have access to a computer, a bank account and a debit card.

Online shopping can be economical, convenient, and no less safe than shopping in a store or by mail. It offers lots of benefits that you won't find shopping in a store or by mail. The Internet is always open — seven days a week, 24 hours a day — and bargains can be numerous online. With a click of a mouse, you can buy an airline ticket, book a hotel, send flowers to a friend, or purchase your favorite fashions. But sizing up your finds on the Internet is a little different from checking out items at the mall.

If you're buying items from an online retailer or auction website, remember some of these advice to help you make the most of your shopping experience:

- **Know who you're dealing with.** Confirm the online seller's physical address and phone number in case you have questions or problems.
- **Know exactly what you're buying.** Read the seller's description of the product closely, especially the fine print.
- **Know what it will cost.** Factor shipping and handling — along with your needs and budget — into the total cost of the order.
- **Pay by credit or charge card,** for maximum consumer protections.
- **Check out the terms of the deal,** like refund policies and delivery dates.
- **Print and save records of your online transactions.**

A. Answer these questions : (25 points)

@ x 5
